

# Stem Cell Release Factor™

## New Scientific Anti-Aging Breakthrough

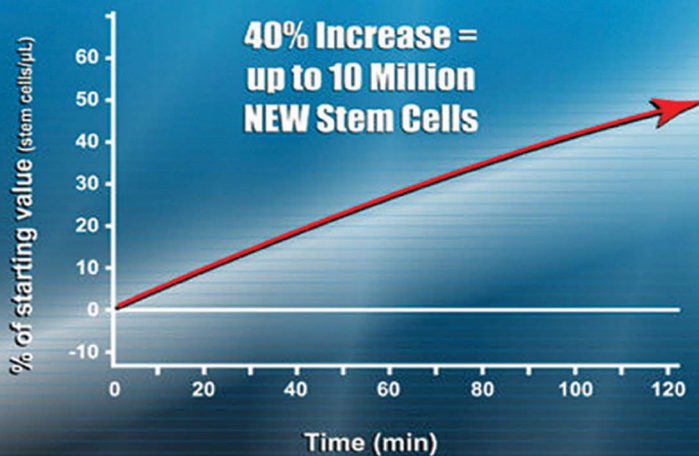

### Scientifically Proven Ingredients:

- Shown to Release Millions of Stem Cells
- Support Healthy Stem Cells
- Protects Mesenchymal Stem Cells against Oxidative Stress and Enhances Vascular Regeneration.
- Stimulate Migration of Stem Cells
- Antiviral, Neuroprotective, and Immune Modulating Effects

**Stem cells are vital components for healing, renewing and restoring damaged tissues and muscles in the body.** These Master cells can form into specialized cells, such as muscle cells, blood cells and brain cells. Circulating the bloodstream, they flow to the tissues in need, reproduce and become healthy new cells within the tissue. **Stem Cell Release Factor utilizes natural botanical extracts clinically proven to increase the bodies natural support and release of stem cells.**

## Millions of New Stem Cells

**Virtually every major medical center is now studying Stem Cells**, including Harvard Stem Cell Institute, Georgetown University, Johns Hopkins, Yale Stem Cell Center, Stanford University, University of Michigan, University of Pennsylvania and many more.

**When it comes to healing and anti-aging, stem cells are the hottest research front in a hundred years.** The National Institutes of Health alone have provided over 1.5 BILLION dollars for research.

**"Breakthrough stem cell study offers new clues to reverse aging"**  
- Report on Albert Einstein College of Medicine.
