High ORAC: Short for Oxygen Radical Absorbance Capacity, ORAC is an analysis that measures the total antioxidant power of foods and other substances. It indicates the amount of dangerous free radicals an antioxidant can "absorb" or neutralize. Scientific findings from the USDA suggest that eating plenty of High-ORAC fruits and vegetables may help slow the aging process in the body and brain. American Dream's **Get Juiced™** has one of the highest ORAC scores on the market derived from natural fruits, vegetables and botanical sources.

The question is; "How can we get enough fruits, vegetables, vitamins and essential minerals"?

The answer may be GET JUICED™, a natural supplement that gives you everything you need from a proprietary blend of organic raw superfoods such as spirulina, fruits, berries, wheatgrass juice, barley grass juice, and dozens of other High-ORAC superfoods... **PLUS 100** other essential vitamins and minerals, enzymes, fiber and more – in an all-natural caplet.
