The Wild Tawtnuk is considered one of the most powerful weapons in fighting against illness and disease. Today we stand at a crossroads. Exotic viruses and resistant bacteria are threatening our way of life. Governments are issuing warnings of pandemics. Medical treatments are proving to be ineffective. We now have the opportunity to take advantage of the very best of what science and nature has to offer.

THE WILD TAWTNUK

Tawtnuk is derived from Conks that grow on certain cone-bearing trees. The Conk contains 94,000,000 biologically active Beta-glucan molecules in every serving. The Conk contains natural Germanium - an oxygen catalyst and one of the most powerful free radical scavengers found in nature. 3-beta D-glucans research shows it may be beneficial for:

- Depression
- Diabetes
- Fungus
- Bacteria
- Viruses
- Fevers
- Pain
